City Order Desk · Quick-start reference

THE FLOW →

1

Review

open New / In review · check order lines

2

Check ledger

Clear · Pending · Unavailable

3

Approve

or Edit & approve / Hold / Reject

4

Wait for serials

warehouse picks & serializes

5

Raise invoice

posts to Zoho with serials

6

E-way bill

if > ₹50,000 · before dispatch

AT THE DESK

● Decisions

- **Approve** → goes to warehouse to pick
- **Edit & approve** → change qty/rate/lines first
- **Hold** → pause with a reason (warehouse won't pick)
- **Reject** → decline with reason (releases stock)
- **Revoke** → pull a pre-dispatch order back

● Ledger (credit control)

- ✓ **Clear** → no dues, approve
- ▲ **Pending** → collect in full first
- ? **Unavailable** → not synced; verify in Zoho — **don't assume clear**

● E-way bill — over ₹50,000

- **12-digit e-way number**
- Approx. **distance (km)** → sets validity
- **Transporter**
- **Vehicle no.** required over 50 km (Part B)

● Revoke & reopen

- Works on Approved → Invoiced (pre-dispatch)
- Invoiced? **voids the Zoho invoice first** — aborts if the void fails
- Releases serials · returns as **Reopened** for re-edit

Watch

Needs attention (red tab) = orders stuck or with a failed step — clear them. · **"Order changed elsewhere — reloading"** = someone else acted; redo on the fresh order. · A **Reopened** order was revoked back to you for changes.
