

WAREHOUSE

City Order Desk · Quick-start reference

THE FLOW →

1

Open

queue: To pick & serialize

2

Scan serials

every unit, on each line

3

Wait for invoice

accounts raise it

4

Dispatch

type + provider + tracking

5

Mark dispatched

shipment is on its way

6

Deliver

upload proof of delivery

AT THE DESK

● Pick & serialize

- Scan or type **each unit's serial** per line
- Rejects **wrong / duplicate / already-shipped** serials
- All units must be captured before it moves to accounts
- Scanner works offline · camera capture on mobile

● Dispatch — all 3 required

- **Type:** Hyperlocal · Interstate · International
- **Provider:** pick from list (or Other)
- **Tracking ref:** Order ID (hyperlocal) / AWB (else)
- Blocked if an **e-way bill** is required but missing

● Proof of delivery (POD)

- **Required** to mark Delivered
- Photo or PDF · genuine file · up to ~6 MB
- Camera capture on mobile

● Serials

- ERX... **Primary** = the unit (goes to Zoho)
- OC... outer carton · MC... master carton
- Every serial is **check-digit verified**

Watch

Needs attention (red tab) = stuck orders — keep the queue clean. · You **can't pick a Hold order**. · "**Awaiting invoice**" means it's back with accounts. · "Order changed elsewhere" = reload and redo.
